EXPERIENCE

Omio, Bangalore — *Frontend Developer (React + React Native)*

JUN 2025 - PRESENT   Omio - **Web** | **Android** | **iOS**

- Built cross-platform features in a **React + React Native monorepo** using **TypeScript, Apollo, Redux, Zustand**.
- Improved **performance and CI/CD** with **GraphQL, Fastlane, Jest, Cypress, Detox**.
- Worked with global teams and implemented for 30+ languages to deliver consistent app experiences.

NIUM, Bangalore — *Senior SDE*

DEC 2022 - JUN 2025   InstaRem - **Android** | **iOS**

- Enhanced app performance through strategic optimizations, resulting in a **30% increase in app loading speeds** and notable improvements in App Store and Play Store ratings.
- Specialised in transaction management and card integration, with expertise in app **data protection**, **security** and **privacy**, including integration with **Apple Pay Wallet** extension.
- Implemented A/B testing and growth initiatives, leading to a **40% reactivation rate** of inactive customers and a **50% increase in transaction volumes**.
- Implemented a CMS to render all app content from Contentful, including dynamic Help Center FAQs, resulting in a **20% reduction in customer inquiries** to the support team.
- Knowledge in Node.js for Backend for Frontend (BFF) services, adeptly simplifying frontend management during backend API migration and refactoring to align with frontend needs.

Honeywell, Bangalore — *Mobile Developer II*

NOV 2021 - DEC 2022   **Honeywell SMB**

- Developed a cross-platform React Native app with native bridging for seamless performance and implemented **template-driven** applications to streamline workflows, enhancing both app rendering and overall functionality.
- **Optimized app architecture**, reducing render time and improving responsiveness.
- Led **security implementations** including **encryption, authentication**, and **secure storage** mechanisms.

GreenPrint Technologies, Bangalore — *React Native / iOS*

JULY 2019 - OCT 2021   **Sphere**

- Led **end-to-end iOS & React Native app development**, seamless integration of APIs & analytics.
- Implemented **Push Notifications, Apple/Google Maps, and comprehensive unit testing**.
- Delivered **secure and scalable mobile solutions**, enhancing user engagement.

EDUCATION

Vivekananda College of Engineering and Technology Nehru Nagar,
Puttur — *B.E. (Computer Science & Engineering)* – JUNE 2019   SGPA: **8.15**

ACHIEVEMENTS

- **Functional Award** at NIUM for enhancing multiple mobile capabilities, focusing on performance improvement and timely execution.
- **Achievement Award** at Honeywell for technical excellence and significant contributions to critical mobile app enhancements, demonstrating dedication and positivity.

SKILLS

- **Front-End Development**

  React Native, React, Redux, React Query Middleware, React Query, Cocoa Touch, RealmJS, Core Data, SwiftUI, Expo, Flutter, Flag, Storybook, Styled Components, Webpack, Monorepo

- **Languages**

  TypeScript, JavaScript, Swift, Kotlin, Java, Python, YAML, Objective-C, HTML, CSS

- **Testing/Deployment Tools**

  Firebase, Cypress, Sentry, CircleCI, Fastlane, App Center, BrowserStack, LambdaTest, CodePush, Reactotron

- **Content Management/Analytics**

  Contentful, Statsig, CleverTap, Amplitude, Flagsmith, Zendesk, Freshdesk

- **Payment/Security**

  Apple Pay Extension, Snyk, eGHL, Plaid, Jumio, Keychain, SSL Pinning, Plaid, Onfido, Microblink, Trustdock

- **Backend Development**

  BFF, Node.js, AWS CloudWatch, MySQL, Elasticsearch, Docker, Postman

- **Other Skills**

  Agile Processes, Creative Problem Solving, Data Structures, Analytical Thinking, Time Management, Teamwork and Communication
